Codes Registered Professional Contractors Metadata

Metropolitan Government of Nashville and Davidson County

What's in this dataset?

Details of active contractors of various types registered with the Metro Codes Administration.

Category:	Business, Development & Housing
Keywords:	codes, building, contractor, construction, renovation, plumbing, alarm, electrical, gas, mechanical, license, permit, hvac, roofing, industrial
Data Provided By:	Codes Administration
Source:	Cityworks, https://epermits.nashville.gov/
Time Period:	Present day
Update Frequency:	Daily

Additional Information

How is this data collected?	The data is extracted from the ePermits system powered by Cityworks. A script runs daily to export the data from the production database. The data is checked regularly by the data owners. The address, phone, fax, and email information are what have been supplied by the contractor for Metro's records and is not validated.
What does each record represent?	A registered professional contractor
What are the limitations of the data?	Contractors that are not active with Metro for any reason, such as an expired professional license, bond, or insurance, will not be listed in this dataset. They will be re-added to the dataset if their license, bond, or insurance becomes current.
Additional comments:	Contractors with multiple profession types are listed multiple times in the dataset under each respective profession.

Data Dictionary
